Just Doors UK are proud to offer the UK's largest selection of high quality, secure, energy efficient yet lowest priced DIY double glazing, doors and windows available to buy today at fantastic trade prices, saving you £100's off retail prices!

Quality your home deserves

Liniar profiles are manufactured using tried and tested methods that will not only keep your home warm and safe, but will ensure you're covered against warping, splitting and discolouration for 10 years.

Multi-chambered
Size-optimised chambers break up mini convection currents locking in pockets of warm air.

Positive drainage
Specially designed profile contours maximise natural drainage and prevent moisture build-up.

Superior gaskets
High performance (patented) double-action 'bubble' gaskets maintain tight weather seals.

Glazing flipper
Unique 'glazing flipper' gasket reduces cold transfer, water ingress and noise pollution.

Integrated reinforcing
Internal structures provide exceptional rigidity while minimising the need for steel reinforcing.

Thermal dam
Designed to Passivhaus recommendations, the thermal dam reduces heat transfer.

10 Year Guarantee

We can supply a wide range of finish colours and textures across our entire range of doors to complement your windows.

* Composite doors only

Door furniture

Our hardware has been selected to perfectly complement our windows and with partners such as Yale and Mila we feel we can provide the perfect combination

Energy efficiency

In 2004 Window Energy Ratings (WER) were introduced by the British Fenestration Ratings Council (BFRC) in order to simplify the method of comparing the energy efficiency of windows.

The energy rating of the window, described as a letter from A (best) to G (worst), is determined by the amount of energy the product will either lose or supply to the property over the course of a year. All of our windows are capable of achieving an **A+14 rating**, the highest level of energy efficiency.

Features and benefits

All of our windows and doors come with the Liniar range of multi-chambered profiles as standard, achieving the highest possible BFRC Energy Ratings in the industry.

Security. It's our priority

You and your home are valuable and we take this very seriously. That's why we offer Yale locking on all of our window products as they are one of the most recognised and respected names in home security.

Britain's best selling multipoint door lock, **The Yale Lockmaster®** comes as standard on all our uPVC entrance doors, providing your home with the protection it deserves.

The Yale Shootbolt locking system has been accredited with Secured by Design police preferred specification, the highest possible level of protection against forced entry.

Shootbolt locking

The Yale Shootbolt now comes with a comprehensive lifetime warranty against mechanical malfunction, retaining its effortless functionality and security benefits for a lifetime.

Guarantees and warranties

We have such faith in the proven ability of Yale locks that we fully back the company's generous guarantees and warranties.

Lockmaster

Yale develop intelligent, compact and robust locks. We are proud to work alongside Yale, which work perfectly with the design of our windows and doors.
